

SUNRAISE

*Celebrating over 30 years
of quality products and
customer satisfaction.*

HP 15" POWDERING SECTION

Sunraise developed our automated, stand alone powdering section specifically for the application of adhesive powders utilized by the heat transfer industry.

Features our exclusive molded cast aluminum vacuum head which focuses the vacuum precisely to the substrate surface allowing for a crisp, clean product everytime.

It can operate in-line with high production presses and our variable vacuum control, which allows you to increase and decrease vacuum, will accommodate powder as fine as 60 microns and as coarse as 200. Allowing for a wide range of designs and effects.

With our legendary reputation for superior performance and reliability you can bet adding a Sunraise Powdering Section to your operation will ensure years of productive service.

For more information about our complete line of quality thermographers and slitters visit www.sunraise.com or call 1-800-521-6367
